FIG. 5 is a block diagram of a system for generating a script from a list of attributes. The system includes a list of attributes (90) which is used to generate a script (92). The script (92) is then used to generate a list of attributes (94). The list of attributes (94) is then used to generate a script (96). The script (96) is then used to generate a list of attributes (98). The list of attributes (98) is then used to generate a script (99). The script (99) is then used to generate a list of attributes (100).
